The first batch of project beneficiaries comprised of 20 students, who started their university education in Taiwan in March 2018. The second batch followed in 2019, which included 37 students. Some 40 students comprised the third batch. To date, the project has a total of 97 student beneficiaries, originating from different dioceses in the Philippines and recommended by their respective parish priests and pastors.

Prepared and motivated, the ISP-Taiwan students are determined to come back to the country as competent Industrial Engineers.

Empowerment Through Overseas Education:

ITINERANT SCALABRINI PROJECT (ISP) TAIWAN

At each stage of our lives, we set goals to achieve and targets to hit. The sense of pride in knowing we have worked to get where we want to be is rewarding and satisfying. Almost always, it requires one vital component - good education.

Education is the most important tool to change one's life. It determines the quality of an individual's life. Not only does it improve one's knowledge and skills, it also develops personality and attitude. Most noteworthy, education affects the chances for employment and creates opportunity to make a decent living.

The Itinerant Scalabrini Project (ISP) - Taiwan

This project of the Asia Delegation of the Missionary Sisters of St. Charles Borromeo, Scalabrinians, opened in March 2019. It consists of bridging the need for higher education of underprivileged graduated Grade 12 students who aspire for modern technological training but have little means to pursue this life goal. The ISP – Taiwan Project helps them through the partnership forged with one of the most prestigious technological universities in Taiwan, Minghsin University of Science and Technology (MUST).

The ISP-Taiwan's education plan consists of a study and work scheme guided by the vision-mission of the MSCS and realized by MUST, the project's host university, where students take the 4-year academic degree program of Bachelor of Science in Industrial Engineering and Management as approved by Ministry of Education of Taiwan.

In this project, the Scalabrinian Sisters orient, accompany and oversee the students' academic progress, as well as, their social, cultural and spiritual journey in Taiwan.

ALWAYS PUT GOD FIRST!

As Christian, GOD should be at the center of our lives, and that it means that we should consider HIM in EVERYTHING we do in all things.

Matthew 6:33 says that above all things in our lives, we should seek God, and everything else will be provided for us.

This is as crucial as education is, it should never come before your relationship with God. When we put HIM in front of all of our cares, concerns and ahead of everything we do, we can certainly believe that He will look out for the other things.

To the three batches of Industrial Engineering and Management students, as the semester gets going, you'll swiftly realize that college requires hard work and more of your time.

Though, it is fine to get overwhelmed, but always take time to talk to God. Encourage yourself with prayer, attending Eucharistic Celebration either virtual praise and worship group gatherings as time permits; reading and studying the Bible.

The transition of your life, from being away from home, living independently, studying and working abroad, life is full of times that challenge us and demand us to be at our best.

Never forget that we have a LOVING AND GRACIOUS GOD whom we cannot outdone HIS generosity and goodness at all time.

To the next batches, the study and work program awaits you. The Missionary Sisters of St. Charles Borromeo - Scalabrinians will assist you in realizing your academic abroad. Taking this once in a life time opportunity to study, work and live abroad is such a blessing for you, for your family and for the society as a whole.

You can reach me thru email:
mscsmustscholarsassoc.0325@gmail.com

May your academic dreams come true all the recipients on this study and work program of MingHsin University of Science and Technology!

Deo Gratias!

Industrial Engineering and Management Test prepared by the Department Head, Prof. Te-Seng Li.

4th batch test

No: 53

Name: GENIE SALARDE

1. What is the area of triangle ALC in the figure given below?

3.0
 3.5
 4.0
 4.5

Clear selection

2. Alan has two more than twice as many chocolates as does Alice, and half as many chocolates as does Nadia. If Alice has 'a' number of chocolates, then in terms of 'a', how many chocolates do Alan, Alice and Nadia have?

$2a+4$
 $5a+5$
 $6a+7$
 $7a+6$

Clear selection

3. Milk needs to be thinned to a ratio of 3 parts milk to 2 parts water. The milk-man has by mistake added water so that he has 8 liters of milk which is half water and half milk. What must he add to make the proportions of the mixture correct?

1 liter milk
 1 liter water
 2 liter milk
 1.5 liter milk

Clear selection

4. The width of a rectangle is $\frac{2}{3}$ times its length. If the length is calculated to be 9, what is the value of perimeter for this rectangle?

36
 30
 12
 54

Clear selection

5. A line l is parallel to the y -axis and passes through the point $(2,3)$. What is its gradient (m) and x -intercept?

$m=0, x=(3,0)$
 $m=\infty, x=(2,0)$
 $m=0, x=(2,0)$
 $m=\infty, x=(3,0)$

Clear selection

6. What is the equation of the new parabola created by shifting $y = x^2$, three units in the positive y -axis direction?

$y = (x+3)^2$
 $y = x^2$
 $y = x^2 + 3$
 $3y = x^2$

Clear selection

7. A sphere with diameter 1 unit is enclosed in a cube of side 1 unit each. Find the unoccupied volume remaining inside the cube.

$\frac{1}{4}$
 2π
 $1 - \frac{\pi}{6}$
 $\pi/6 - 1$

Clear selection

8. The function $y=3x^2$ is shifted 2 units towards the positive x -axis (right) and 3 units towards the positive y -axis (up). Find the resulting function.

$y=3x^2+5$
 $y=3(x-2)^2+3$
 $y=3(x+2)^2+3$
 $y=3(x-2)^2-3$

Clear selection

18. If the product of two integers x and y is less than 82 with y being a multiple of three. What is the highest value that x may have?

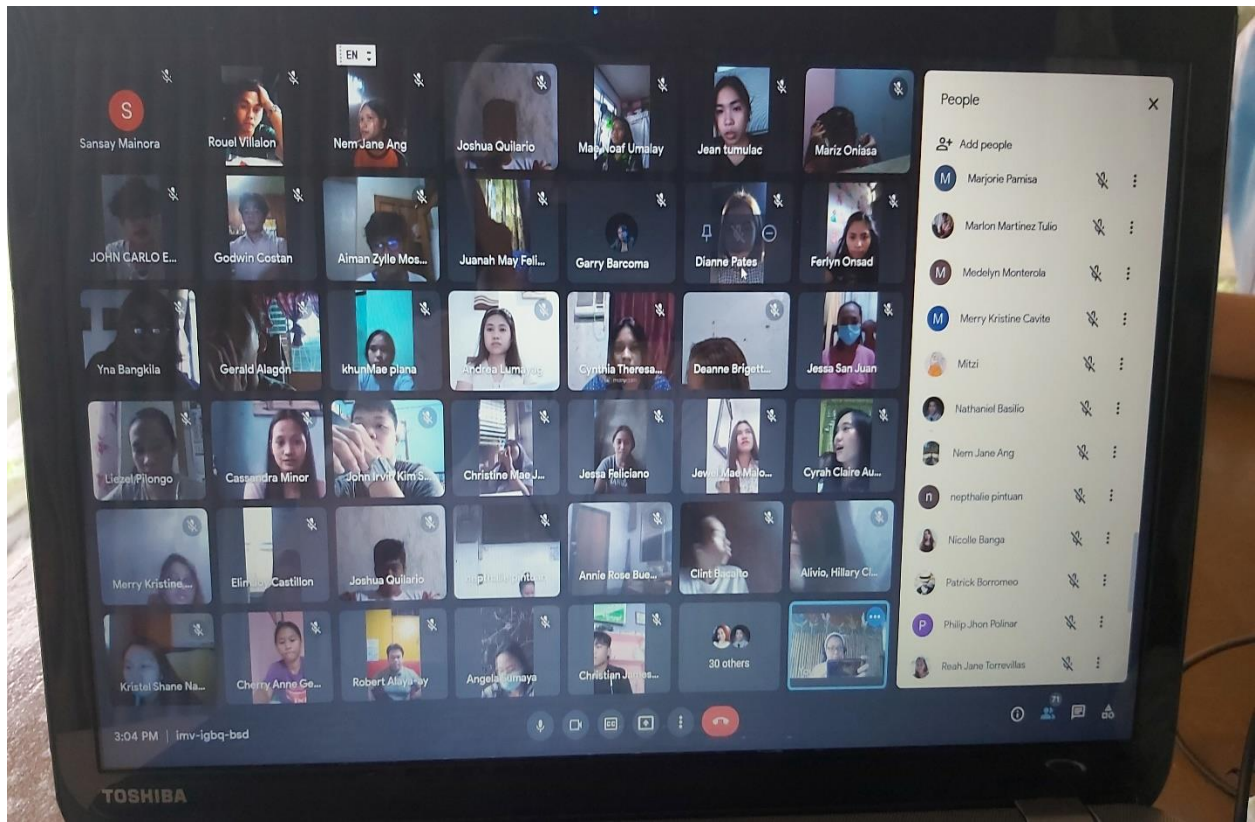

13
 27
 30
 34

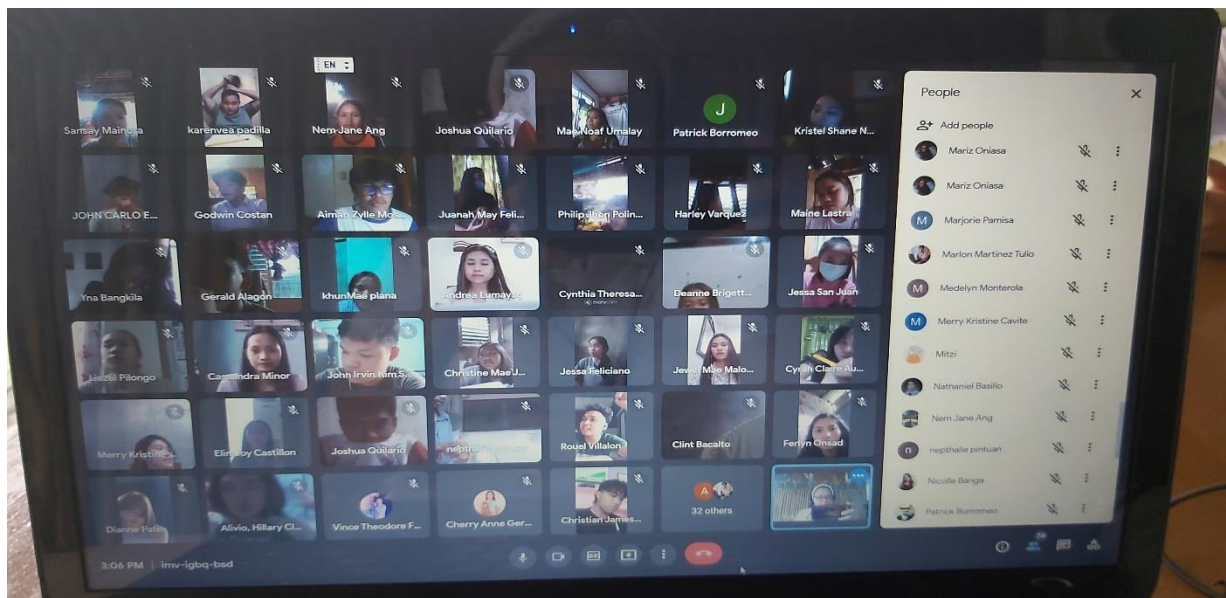

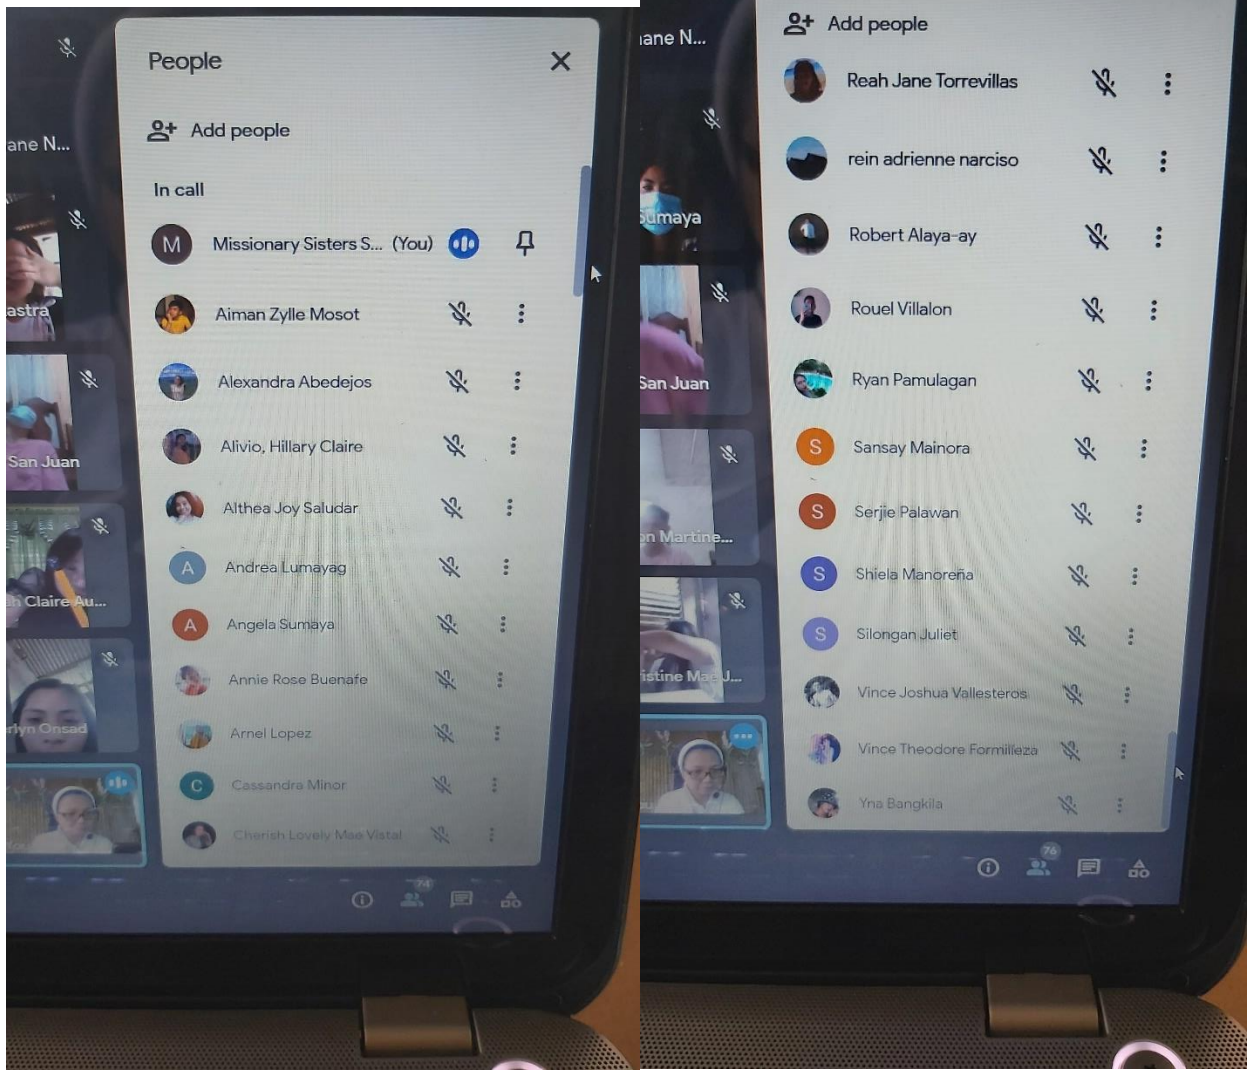

Clear selection

What is the ratio of the area of triangle ABC to the area of square ADFC if $CB=(CF)/4$?

$\frac{1}{4}$
 $\frac{1}{8}$
 $\frac{1}{16}$
 $\frac{2}{5}$

Clear selection
